DATE April 30, 1980

SUBJECT Seventh Annual Fishin' Mission

In response to your memo dated April 18, 1980 regarding the Seventh Annual Fishin' Mission.

I am unable to locate my copy of your memo (I believe it's in my blue sky file - but I'm too lazy to look and besides it's a secret folder). I thought that I would respond anyway.

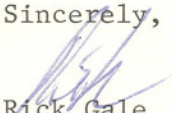

While I am pleased that I will be able to attend this year I am sorry to report that it will be only for May 30th thru Monday June 2nd. And even worse I'll be driving up with Mark Wellington (I'm not too particular).

It would be very nice if you guys could coordinate the food but I don't believe that you'd possibly be able to stock enough booze for my usual high level of consumption, so I'll handle that.

If you require any additional information, please wait until the next blue sky task force meeting as I am a very busy man.

Thanks for inviting me and I hope that this guarantees some fish.

Sincerely,

Rick Gale
Service Supervisor
